

ARK GLOBAL LOGISTICS FZ-LLC

Redefining, Simplifying and Digitizing Trucking and Logistics

Transportation

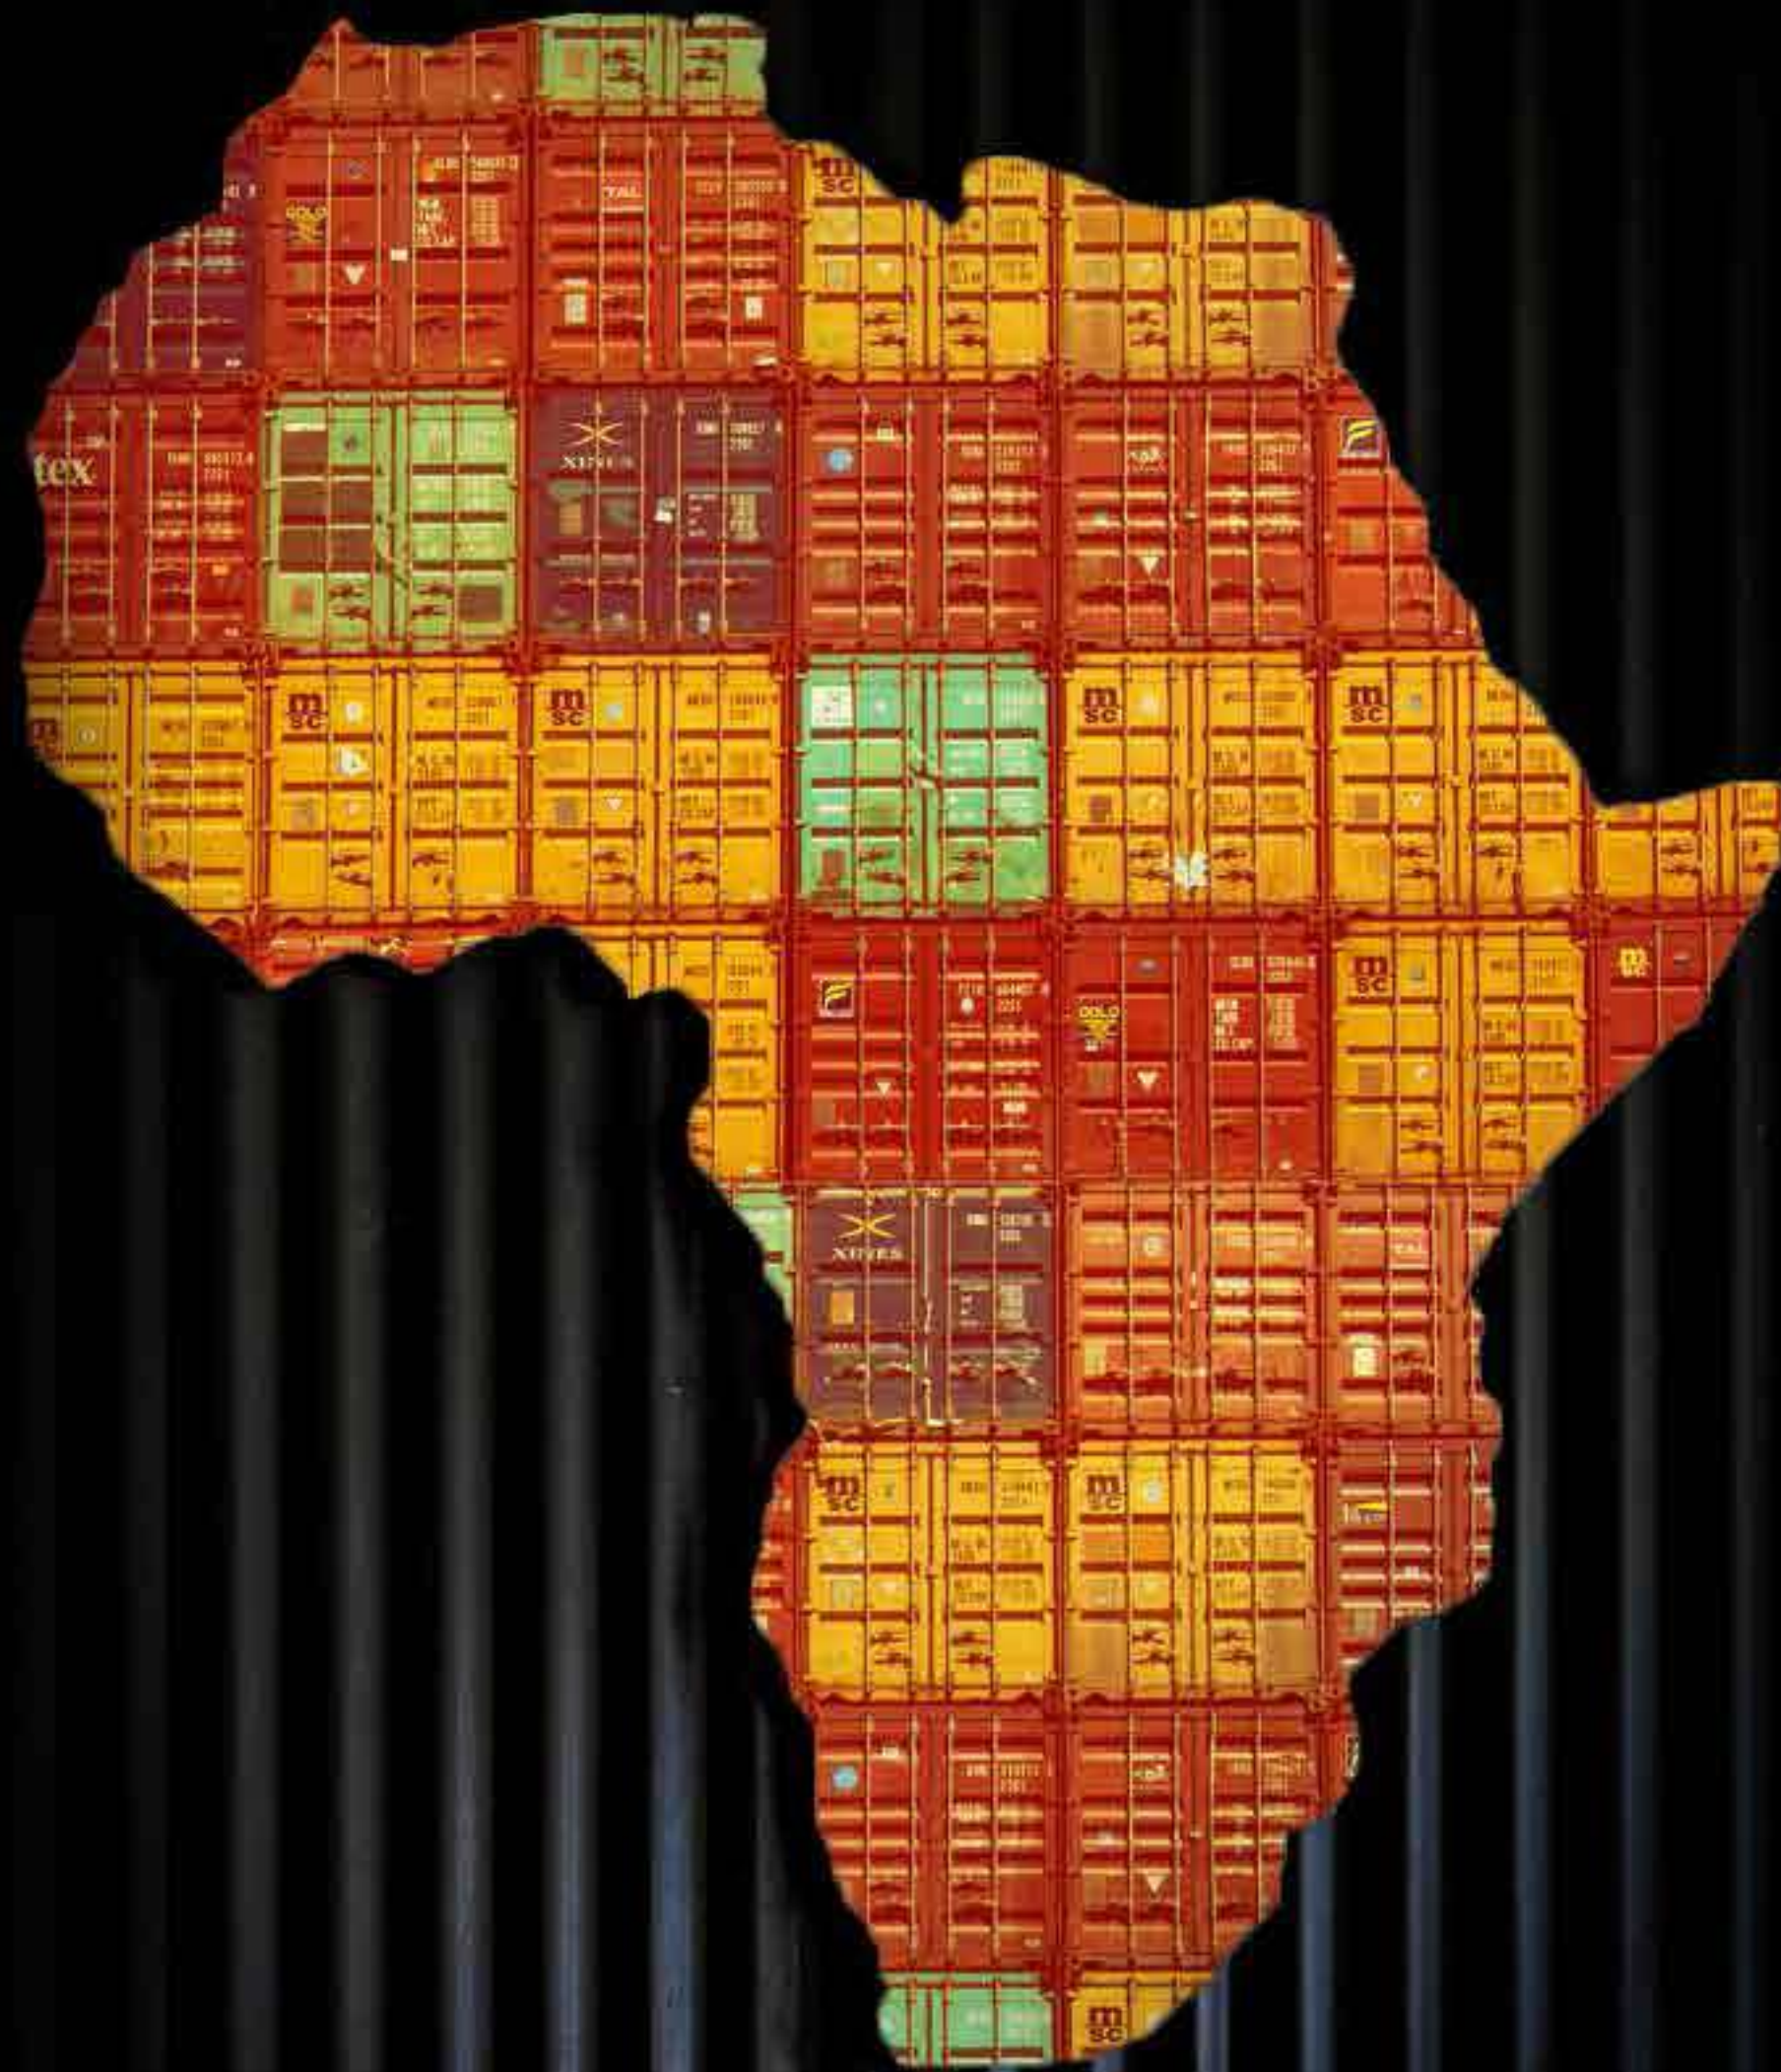

- The Lifeline of Africa

- **Burgeoning economy**
- **Rich in raw commodities and mineral resources**

* African Logistics Terrain – An Overview

- Second highest number of land-locked countries
- Complicated Surface Transportation
- En-route challenges and associated risks
- Inefficient logistics and transport infrastructure

The Outcome...

- Increased transit time
- Substantially high cost of operations
- Sub-optimal quality of trade and transport
- Discrepancies in pricing and availability
- Limited choices for importer as well as exporter
- Operational inefficiencies

Need of the hour...

- Provide mobility
- Offer technology enabled solutions to optimize cost and time
- Build and streamline infrastructure
- Enable efficient supply chains and distribution networks
- Help in creating employment generation and income opportunities
